18.	May 31	<u>Memorial Day – NO CLASS</u>			
19.	June 2	advanced topics		Lab #4	
	June 7	Final Exam (8:30 – 11:30). Location: TBA			

Important changes:

1. Lab #2 dates have changed. It is now due later. Notice that lab #3 is still due on the same date. I believe this more accurately reflects the difficulty of the assignments (lab #3 should be the easiest of labs #1-4). It also means that we will (hopefully) be able to cover the material for those two labs in class better before the assignments go out.
2. We're about a half a day behind my tentative schedule, so I've moved a few topics around. We're still making excellent progress.
3. We now have a room for the midterm in the **history corner**. Hopefully, this will be big enough to fit all of us with alternate seating.
