

Registration Form

Name: _____

Year: _____

E-mail: _____

Phone: _____

Describe briefly your reasons for taking the seminar. What do you hope to get out of it?

To the extent that you have thought about this question, what are your plans following graduation? Do you expect to go on for a Ph.D. or a master's degree? Are you looking for employment immediately after graduation?

Is there any member of the faculty or researcher in the Palo Alto area that you would be particularly excited to have as a speaker?

On the reverse side of this form, in just a paragraph or two, please describe your principal area of interest in computer science. What topics have most interested you? What projects have you thought about undertaking? (I will use this information to help pull together a list of possible speakers)
